La garantía no cubre:

Tratamientos inadecuados, falta de mantenimiento o prescindir de las recomendaciones de uso.

Al momento de escoger la tela asegúrese de que sea la adecuada para su proyecto; debido al tamaño de nuestros catálogos no siempre se aprecia el diseño completo o efectos propios de la tela; estas variaciones no constituyen una garantía.

These references feature a special coating that guarantees their darkening property. They must not be ironed on the reverse side (backing), as this may affect their functionality. Ironing or steam application should be carried out only on the front side (the garment side).

The warranty does not cover:

Inadequate treatment, lack of maintenance or disregarding recommendations for use.

When choosing the fabric, make sure it is the right one for your project; due to the size of our sample books, it is not always possible to appreciate the complete design or effects of the fabric; these variations do not constitute a guarantee.
